PERSONAL STATEMENT

Most people think that learning ends by the end of college years, but to me, learning never ends. I will learn anything that is good to me or my community, and I want to learn only from the best. I would like to fulfil and pursue my dreams, in being successful and happy, and the only way I can achieve this is by believing in myself and my workmates, because success and happiness are only achieved when we all work together.

My GPA is average, but in the real world, it doesn't reflect the real me, because as an employee, I will only do my best.

To many people, work place is routine that they have to do to get their salaries, but personally I think it's much more than that, it's going to be my second home, and I should always make it better and better.

In the end, I seek to achieve the best of me, to achieve the best of the institution.
